Granby's Conforto Series of European Style Boilers

Granby's Conforto Series of high efficiency cast iron European style boilers combines the time tested three pass system with technological advances and one of the industry's highest AFUE ratings. The Conforto Boiler, in combination with our Distinctive Designer Steel Panel Radiators, makes for a highly efficient, economical heating system. Compare the high efficiency Energy Star rated Conforto Boiler to any boiler on the market and you'll find that dollar for dollar, feature for feature, satisfied customer for satisfied customer, we remain America's Best Heating Value.

Allanson AirGuard C600 UVC Air Purification

Commercial grade UVC Air Purification Ceiling Fixture with multi-stage filtration and UVC sterilization chamber to purify your indoor air up to 99.99%. Integrated smart sensing technology allows for efficient and timely replacement of critical components. This unique feature, the only one in its class, ensures continuous operation and air purification.

H12 and H13 HEPA filter options available to meet all requirements.

FPPF additives are your energy assistance programs in a bottle.
sales@fppf.com • www.fppf.com

Essentially An FPPF Solution

Treating fuel operated systems involves much more than pouring an additive into a tank. "Preventative Maintenance" is a necessity whether you are operating/storing fuel for your heating system or motor vehicle.

PROTECTION EQUALS PROFIT:

- PROTECTS year round
- PREVENTS fuel line freeze-ups
- CONTROLS waxing & gelling
- DISPERSES water in heating oil & kerosene
- PREVENTS corrosion in the entire fuel system
- ALSO SOLD in 1 gal & 55 gal drum

Made in America 920-564-6272

LECTROTRUCK Stair Climbing System

The LECTROTRUCK easily moves heavy boilers up or down steps, on or off pick-up truck beds, with the push of a button!

Design features include:

- Detachable & rechargeable battery pack
- High-torque motor
- Aircraft hardened steel drive screw
- LTA6512E = 1500 lb lift capacity
- LTA5512E = 1200 lb lift capacity
- Max lift height of 41 inches
- These are two models most preferred by installation crews

Saint Roch S10 Series

The Saint Roch S10 Boiler is a highly efficient (87%+), cast iron boiler designed for firing with Biofuel, Oil or Gas. Using a unique diamond-shaped design with a 3 pass heat exchanger, heat is quickly supplied to heating zones and domestic hot water needs. It is perfectly suited for finned tube convectors, panel radiators and hydro-air applications. With its electronic "Fuel Smart" controller S10 can achieve fuel savings of 40% over single-pass boiler. The S10 complies with ASME, UL & Energy Star standards and carries a limited lifetime warranty for peace of mind.

Integrity™ Combi Boiler by Energy Kinetics

The Integrity™ Combi Boiler is the only modulating condensing boiler built with off the shelf safety controls and industry standard parts, including a Hydrostat®, Carlin® 70200 Primary Control, Carlin Ignitor, and a factory installed Caleffi® mixing valve.

Available in 120,000 BTU/hr and 200,000 BTU/hr models, it has an oversized plate heat exchanger for increased condensing rates and ample hot water for showers, laundry, and more. The 5-Zone Integrity Condensing Energy Manager can be expanded up to 20 zones and features self guided menus so boiler setup can take less than a minute... even unfamiliar techs say "wow, that's easy!"

NOVO Combustion Analyzer

Buy a New Novo Analyzer and get a FREE CO Personal monitor!

*Through Feb 28, 2025

Visit SeitronAmericas.com to learn more

2024-25 Heating Season Promotion from Seitron Americas

Buy a new NOVO analyzer and get a FREE CO personal monitor! (valid through 2-28-2025 with submission of Rebate form)

The NOVO combustion analyzer makes combustion analysis quick and intuitive.

- Live Action PRO mode "Combustion Assistant"
- 7" touch display for easy menu navigation
- Dedicated probe with one simple connection
- Simultaneous pressure & combustion
- iOS & Android apps
- Field replaceable sensors
- Promotion Discount for Trade-ins

Carlin's UL Listed B100 Burner

Carlin's UL Listed B100 burner is built to optimize combustion of all fuels, from #2 through B100. Burners are equipped with a B100 Suntec pump and fully programmable Pro-X 70200 primary control with patented Smart Ignition. Upgrades include dimensional changes to the combustion head assembly, factory set post purge, higher operational Ohms range, and increased pump pressure for improved atomization of high biofuel blends.

A Smart, Efficient Tankless Water Heater

The next generation of tankless water heaters, the SENSEI RX Series models are simple to install, can be set up inside or outside, and are compatible with propane and natural gas. Your team can install these quickly, because the Rinnai Central™ App simplifies setup, and maintenance is easy using their Quick Flush™ system.

Rinnai's proprietary Adaptive Gas Valve Technology, Smart Sense, adjusts to either propane or natural gas for optimal combustion—no conversion kit required.

Beckett Spin-On Filter Adapter Kits

Beckett's Spin-On Filter Adapter Kits easily convert canister filters to convenient spin-on style. With this semi-permanent installation, there is no need to disassemble or re-plumb the system in order to change the filter. The adapter features "ears" that lock on to the underside of the filter top to prevent movement. The bolt clamps it all together and holds it securely in place.

Beckett's solution saves space under tanks and offers a UL approved bio-compatible filter to meet the decarbonization needs of the future.

Williamson Centennial High Boy & Low Boy Oil Furnaces

Built with an industry leading 10-gauge primary heat exchanger for durable quiet performance expected by homeowners. Designed for easy installation, the Centennial includes an A/C fan center and factory-wired plug-in burner connections. The preformed slide-out combustion chamber, dual spring-loaded clean-out ports, with

observation opening, and test port, make inspection and service fast and easy. Available in Variable Speed [ECM] or Direct Drive Motor. 800-736-2378 • williamson-thermoflo.com

Roth Double-Wall Oil Storage Tank

- Leak-proof and will not corrode
- Outer tank holds 110% of inner tank volume for maximum protection
- Up to 50% lighter than conventional steel tanks
- Can use for heating oil, diesel and bio fuels
- Compact, economical design
- 5 sizes available – multiple tank installation configurations
- Quality control and testing exceeds industry standards
- Up to \$2 million clean-up policy PLUS 30 years product warranty

Hydratech DTX Glycols

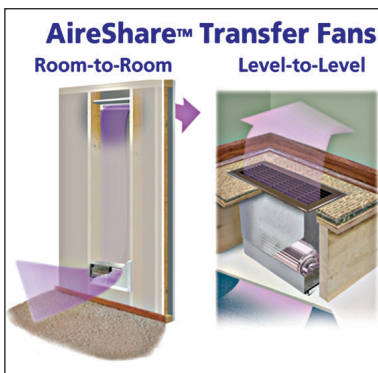

Coolflow DTX—High performance non-toxic secondary refrigerant, suitable for replacing Propylene Glycol in food and cold storage cooling systems.

Thermox DTX—High efficiency, non-toxic ground and air source heat pump antifreeze.

DTX benefits include:

- Proven to reduce energy costs by >10%
- Potential 60% fluid price saving if DTX replaces MPG
- Low viscosity—Easier to pump
- Fully inhibited—Protection against corrosion, scaling and biological fouling
